DISCOPAK

Stubble disc harrows
mounted and trailed

From **130 to 280 hp** tractors

DISCOPAK

Mounted and trailed Discopak Stubble disc harrows

Discopak is an effective disc harrows for various tasks, able to make a stubble or deep work.

Low maintenance

- Dustproof seals
- Possibility to change the grease
- Relief valve in case of grease excess

Versatility

- Fast stubble ploughing
- Stubble ploughing
- Spring tillage
- Seed bed preparation

Efficiency

- 2 discs with different diameter (610 & 660 mm)
- Gregoire Besson patents
- Risk of residue blockage reduced
- Perfect mulch

Precision and regularity

High disc diameter

Weight per disc 100 kg
(suitable for difficult soil conditions)

Constant working depth

Possibility to work
up to 12 cm

Manoeuvrability

Compact machine even
for the widest models

Transport width 3,00
(mounted), 2,50 (trailed)

Homogeneous finish

Perfect levelling

Constant working depth,
whatever the working speed

Following harrows behind
each disc gang for a better
finish

DISCOPAK

Mounted Discopak Stubble disc harrows

Discopak is performing in all the different soil preparations of the farm (stubble, ploughed soil, mixing residues...).

Rigid frame

Compact model
(3,00 m wide)

Easy to handle with

Foldable mounted chassis

Transport width 2,50 m

High output : working width up to 4,30 m

100 kg/disc

High penetration capacity

Possibility to work in hard soil conditions

Mulching

Constant and regular working depth underground

Trailed Discopak

Stubble disc harrows

Emopak combines with Discopak makes possible to consolidate the soil for a better soil preparation.

System Maxi'control

Hitch totally articulated, which aids an easy hitch and short manoeuvres at work

Drawbar equipped with hydraulic cylinder, to increase the pressure on the tractor to reduce the draft

Rear hydraulic hitch, to control the rear roller

The Maxi'control makes possible to offer a regular working depth, whatever the working speed

Transport width

Wide wheel base ensures stability and confort in transport (2,50 m wide)

Folding and unfolding are carried out automatically from the tractor cab

Pneumatic or hydraulic breaks are available

Finish

Disc gangs fitted in line, makes possible to have a very compact machine :

- perfect control working depth
- regular mulching
- perfect linking between 2 crossings

Technical features

 X					
Mounted Discopak (rigid frame)					
24	230 mm	3,00 m	3,00 m	2000	130 hp
Mounted Discopak (foldable frame)					
36	230 mm	4,30 m	2,50 m	3500	170 hp

Trailed Discopak

32	230 mm	4,00 m	2,50 m	4600	140 hp
40		5,00 m		5400	180 hp
48		6,00 m		6000	230 hp
56		7,00 m		7200	280 hp

Weights and HP requirements only indicative, subject to variations following options and type of soil.

Genuine Gregoire-Besson wearing parts : the simplest way to achieve high output

**For its wearing parts,
Gregoire-Besson uses the best
technologies to reach higher quality.**

Parts are designed to be easy to pull,
to ensure penetration and to lead
to top of the range ploughing.

Flat profil of the disc

Sharp
Less sticking
Less pulling
Suitable for high working speed

In standard, Discopak is fitted with
Ø 610 mm & Ø 660 mm.

In option on trailed models, it is possible
to choose 660 mm & 710 mm.

Following harrows

Splatters of mud reduced
Better mulching
Crumbling improved
